### INSPECTION PERFORMED

**Storage Condition:**

At the time of our attendance at the factory, we found the fenders stored in the manufacturer's open yard in normal condition.

**Sample plan:**

According to the client's request and ISO 17357-2014, general inspection level II, total 2pcs (D: 1.5M, L:3.0M) and 4pcs(D:3.3M,L:6.5M) of fender were randomly selected for inspection.

**Packing:**

The Fenders were in nude packing.

**Marking:**

The size and serious No. were painted on the body of fender.

**Charge pressure witness (50KP):**

Per client requirement, the above mentioned 6pcs fenders were charged pressure 50KP under BV inspector witness for about half a hour. They were in normal on site.

The pressure gage was provided by supplier without calibration certificate, the result was for reference only.

**Overall visual inspection:**

From the selected 6pcs of fenders, BV inspector found the fenders in normal condition without obviously damage and scratches.
